

08/02/10 Appeal for sites for Bee Hives in Dunbartonshire

We have been contacted by a beekeeper who wants to encourage beekeeping in Dunbartonshire. Specifically, he is looking for sites that could hold hives as he has quite a few people who are very interested in pursuing this as a hobby but do not have space.

Would your Club be interested? It would cost nothing to the landowner (you might even get a pot of honey or two!), and since the hives would be tended by one person, there would be minimal disturbance.

If clubs are interested they can contact SGEg direct or Gillian Telfer (Biodiversity Officer for Dunbartonshire)
